

## TH627

### Telehandler

Maneuverable and effective.

If stacking heights of 6 meters are involved, the telehandler TH627 is the ideal solution. With a payload of 2.7 metric tonnes, it remains stable even during extreme loading processes. The numerous option variants make the TH627 a real all-rounder on the construction site. With two cabin variants, the vehicle offers a low overall height or, with the high cabin, an even better all-round visibility.

## Highlights

- Choice between two cab heights.
- All switches assigned to the same category are the same color.
- Good accessibility for daily maintenance.

## Technical Data

### Hydraulic

operating pressure	260,0 bar
flow rate max.	89,0 l/min

### Mechanical - Output Details

Travel speed	20,0 km/h
Travel speed (Option)	30,0 km/h

### Mechanical Details

Length	4.400,0 mm
Width	1.960,0 mm

Height	2.105,0 mm
Payload max. LSP 500mm	2.700,0 kg
Payload lift max.	1.800,0 kg
lift max.	5.730,0 mm

### Engine

Power rating max.	55,4 KW
Maximum torque	300,0 Nm
Exhaust-gas limit	EU Stage V
